

# OBJECTS SQUARE

# OBJECTS SQUARE<sup>2</sup>

What are the youngest ones thinking about ? As the usual places for socialising have disappeared, new spaces are being created.

Family, boredom, daydreaming, homeworks, screens ... little bits of thoughts collected from the young people of Roubaix and the Moulins district in Lille, from an object that surrounds them.

SOPHIE B.

That's all I could find except my phone. For me, they symbolize a certain freedom that you don't have in these times. I like to look at these parakeets (because yes, there are plenty of them), it's like an air show, they sing and make a lot of noise, so they don't go unnoticed. They spend every night in large numbers during this time of the year.

**AMIRA**

**FREEDOM**

I print on it my homework and also colouring and games for my little brothers and sisters. I take care of them a little bit, but they're grown up and can take care of themselves. And then we go out to play in front of the house. My strategy for not getting bored is to sleep very late in the morning so that the days are shorter.

ADÈLE

STRATEGY

Manga inspires me a lot when I draw. When I read them it allows me to escape, to dream, I'm in my own world. There are a few stories that inspire me for some homework especially for the texts. Sometimes, when my day goes badly, I read, it makes me forget everything and I sleep better. And sometimes I have manga dreams.

OCÉANE

ESCAPE

This object allows me to do my homework, play and make Skypes with my best friend. We're a little bored right now because we can't go outside to play. I'm trying to do something other than the computer, so I spend more time with my family.

**SAMIA**

**FRIENDS**

I chose this little pot with a plant, because I like plants, flowers... I find it beautiful. It symbolizes nature. It doesn't play a special role in my life, but when I see it, I feel in a good mood.

LINA

NATURE

My PS4 and Switch are very important items to me. They allow me to have fun, to relax and also to watch videos. But above all, to be in contact with my friends and to play with my family. I've had them since I was a child and they are very important to me, especially now.

**JASON**

**CONNEXION**

I chose TV because it keeps me busy. I'm very bored. I watch everything, movies, series, Youtube videos. Right now I'm watching puzzles for survival, I'm on the seventh one, and I've done four of them!

AIMAD

BOREDOM

This target is very important to me because it was with it that I shot the gun for the very first time. I had this chance because my mother works at the Police School of Roubaix and one of her colleagues, a shooting instructor, took me to shoot a pistol. And I'm proud of it!

**JULES**

**THE TARGET**

My metal bed is important for sleeping, then bathing is important for washing, and finally, food to eat well.

KEVIN

PRACTICAL THINGS

We use this object to write  in class as well as at home. It is used to write what we think. We can write when we laugh or cry, when we are angry or sad, when we are in pain or afraid. It can be black red red green blue violet pink yellow but this one is black.

LEA

WRITING

Netflix is so good, you can put it on your TV, computer or phone. You can watch whatever you want: there are good shows like Stranger Things, La Casa de Papel, Riverdale... it's when I'm bored or when I have nothing to do during this confinement. I LOVE NETFLIX.

**ZAHEYA**

**THE ENTERTAINMENT**

**NETFLIX**

When I look at my shells, I think back to when I was at sea. It reminds me of the beach, the sun, the sand, the water, the fish. It makes me want to go back quickly.

LINDSAY

THE MEMORIES
